

DRIVER REHABILITATION PROFESSIONAL (DRP) MICROCREDENTIAL MATRIX

Badge description: The Driver Rehabilitation Professional (DRP) microcredential represents a professional in the field of driver rehabilitation who, through successful completion of specific training courses, is equipped to provide service within basic and low-tech programs as per the Spectrum of Driver Rehabilitation Program Services. A DRP is obligated to follow ADED's Best Practice Guidelines for the Delivery of Driver Rehabilitation Services to keep driver evaluations formalized and objective and attests they will adhere to the ADED's Code of Ethics. The DRP micro-credential is a steppingstone towards the CDRS® certification and requires a defined amount of continuing education to ensure continued growth and current knowledge in the field.

Keywords:

Driver Rehabilitation professional	Adaptive Driving Equipment	Driving with special needs
Basic Driver Rehabilitation Program	Driver assessment	Seniors and driving
